NEWS AND VIEWS...

And What Have You

By BOB CRAIG

There is a column by Richard L. Leshner, president of the Chamber of Commerce of the United States, that is making the rounds of some of the weeklies we receive that is worth passing along.

In a column entitled "The Wisdom of Big Brother," Leshner has this to say:

"For all of you who have wondered whatever happened to Dick and Jane since last encountered in your first grade reader: They are live and well and editing pamphlets for the Occupational Safety and Health Administration.

"In evidence, I quote from the first two paragraphs of an OSHA booklet entitled 'Safety With Beef Cattle.'"

"Hazards are one of the main causes of accidents. A hazard is anything that is dangerous."

"Don't get too tired when working with cattle."

"Watch your step. Many people trip over animals and fall."

"Be careful that you do not fall into the manure pits."

"This sage advice—written at the reading level of your average cow—is part of a series of pamphlets that will cost the taxpayers about \$500,000 so OSHA is having the last laugh after all.

"While OSHA demonstrates a firm grasp of the obvious, the Internal Revenue Service is having the opposite kind of trouble. In a random test, IRS taxpayer assistance personnel answered typical taxpayer questions incorrectly one out of four times, according to Rep. Charles A. Vanik, (D-Ohio).

"Meanwhile, the Environmental Protection Agency has discovered—at a cost of only \$4.2 million—that poorly tuned engines generate more pollution than properly tuned engines, something any good mechanic could have told them for free.

"Not to be outdone, that other diligent guardian of our safety (if not our sanity) the Consumer Product Safety Commission, is still laboring away trying to write a standard that will prevent matches from burning your fingers (or much of anything else).

"That's enough for now, folks. Keep smiling through your tears. And until we meet again, try hard not to fall into those manure pits."

And along this same train of thought, Congressman Omar Burleson in his newsletter this week asks, "How can the ban on Saccharin by the Food and Drug Administration be justified when the Government subsidizes the growing of tobacco?"

Don't know why he is asking us since he is a lot closer to those folks than we are.

FROM THE FILES . .

FIFTY YEARS AGO

April 1, 1927
On Monday evening Mrs. J. Henry Littleton was hostess to the members of her Sunday school class with a lovely buffet supper. The rooms were pretty with spring flowers, and as the guests arrived they were greeted by Mrs. Littleton and presented to the officers of the class, who assisted in the entertaining for the evening.

Those enjoying this occasion were Misses Lennie Greenway, Tennie Barnett, Velma Boyd, Vincie and Nettie Bowen, Lillian Norris, Elsie Withers, Francis Lolley, Ruby Rogers, Thelma Hooper, Ruby Dobbins, Emma Harris, Ruby Acuff, Roxie and Elsie Wience, Inez McCarley, Fannie Pearl Magee, May Gay, Annie Laurie May, Mrs. Clay Randal and Mrs. J. Frank Johnson.

How much does a bale of cotton bring? How many bales at that price would it take to equal in value \$11,509.60? How much would it cost to produce and market that much cotton? And when you have answered all these questions let your mind make a few other comparisons in figures.

This week the Herald put out some circulars for the Hamlin Produce Co. quoting prices for poultry, and being a bit inquisitive, we asked a few questions about the value of Hamlin Country poultry. Mr. Collum, the manager, pulled down a slip of figures and showed that he had paid cash to the poultry raisers of this section, the round sum of \$11,509.60 since the first of the year. Getting this nice pile of money, so well and evenly distributed over this country reveals more than ever that there is real value in poultry.

Thursday was an "old timer." The wind blew like it "used to."

About noon a crash was heard and it was seen the M System awning was crashed. No one was hurt, however, the brick from above fell off and a big cap rock with all the brick might have caused death to a person. But people don't parade the streets much in sandstorms. This was the only damage reported.

TWENTY YEARS AGO

(March 28, 1957)

A fairly good turn-out of voters of the City of Hamlin is expected in the annual city election next Tuesday despite the fact that no contest for the two vacancies on the council exist.

Names of A. Spencer and L. H. McBride,

present members of the council, are on the ticket for re-election. Terms of councilmen are for two years.

Hold-over members of the City Council are Mayor O. D. Roland and Councilmen L. E. Prewitt, B. O. Bell and William S. Seals. Their terms expire in April 1958.

A. B. (Buren) Carlton has been named chairman for the annual Red Cross membership drive for the Hamlin community.

The campaign for funds is scheduled to get underway Monday, it was announced this week by Carlton, who said he is perfecting his organization by solicitors.

Three more names were filed for places on the ballot to elect three trustees of the board of education of the Hamlin Consolidated Independent School District before the filing deadline Monday evening, it is announced by Ed Dodd, secretary of the board.

The new names are Dr. M. L. Smith, George Poe and Bill Harbert.

Previously consenting for re-election were LaFoy Patterson, Eddie Jay and Ed Dodd.

Hold-over trustees are Richard Young Jr., Fred B. Moore Jr., Noel Weaver and W. C. Eoff. Fred B. Moore Jr. is president of the board.

A girl was born to Mr. and Mrs. Ike Dresden Acklin of McCaulley on March 22 at 4:30 p. m. After balancing the scales at seven pounds seven ounces, she was given the name of Lanna Denice.

Unironed clothes were the fashion Tuesday night at the Hamlin High School homemaking department. The FHA chapter members all came in garbs that were not ironed, and a prize was given to the "most unironed."

Refreshments were served from two ironing boards. Those in charge of food were Betty Galloway, Ann Maberry, Joyce Gray, and Norma Jane Staples.

Games were directed by Betty Maberry, Carol Jo Simpson, Martha Gage and Judith Ford. Elizabeth Norton, chapter president, presided over the meeting.

TEN YEARS AGO

(March 30, 1967)

Two trustees of the Hamlin Board of Education, Hamlin Independent School District, will be elected here Saturday, April 1. The election will be held in the high school building.

Candidates are Dr. James Harrison, Lewis Madden, and Burt Oliver. Harrison and Madden are seeking re-election.

A. B. Carlton is election judge. Clerks will be Mrs. A. B. Carlton, Mrs. Joe League.

Three city aldermen will be elected at the City Election here Tuesday, April 4.

Seeking re-election are George Campbell and Irby Weaver. Holly P. Toler is seeking election to the spot formerly held by Cecil Sellers who did not seek re-election.

Events for the May 6 All Girl Rodeo being sponsored by the Hamlin Riding Club have been announced and placards have been placed over the area to advertise the event. T. W. Flenniken is club president.

On Saturday the varsity track team will travel to Colorado City for their final warm-up meet before the district meet the next weekend.

The Hamlin sprint relay team of Philip Simpson, Clifford Titus, Sammy Ferguson and Louis Shelton swept through their fourth meet undefeated last Saturday as they captured first in the San Angelo relays in the 440-yard relay with a time of 43.8.

The local Freshmen captured the top spot in their ninth grade meet held here last Thursday afternoon with 62 points.

Robert Bolden jumped 18'7" to take the broad jump. Preston Lee threw the shot 47'5" for a first in that event. Don Bockmon ran the 100 in 11.3 for a first and Spencer Ford went over the 60-yard high hurdles in 9.3 for the team's fourth first place.

Boy Scouts of Troop 43 took advantage of the extra holiday this week by having a campout at South Lake.

Accompanied by Scoutmaster John Holtz, and his son, John Bill the boys spent Monday night at the lake and worked on various merit badges.

The group included Timmy Lewis, Tony Lewis, Ken Shira, Russell Willingham, Steve Willingham, Jim Clifton, Greg Perrin, Gary McMillan, Don Colley, Mark Madden, Price Bryant, Bobby McMillan, John Stallcup, Steve Rankin, Darrell Craig and Butch Savage of Lueders.

They were joined early Tuesday by Mike Young and Chris Perrin. Floyd Smith was with the group Monday night.

FREEDOM

Inscription for the Statue of Liberty

BY EMMA LAZARUS

Give me your tired, your poor,

Your huddled masses yearning to breathe free,

The wretched refuse of your teeming shore.

Send these, the homeless, tempest-tossed, to me:

I lift my lamp beside the golden door.

This truly reflects the attitude of a nation living close to God. The concern and love for others grows through Christian fellowship. Attend Church Regularly.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Wheat, Greenbugs Make Rapid Growth

Wheat made rapid growth during the past month and at the same time greenbug populations increased rapidly. Damaging populations of 350 to 1000 greenbugs per foot of drill row developed in spots within same fields.

Fields that were fertilized as the rapid wheat growth began suffered less than those fields that were nitrogen deficient. The fertilized fields in most cases were able to stay ahead of greenbug population development, says Jones County Agent Kirby Clayton.

Wheat damage that developed in spots has been primarily in parts of the field where the greenbug was able to get an early start. The soils in most of these areas were loose around the base of the plants, or on heavier soils the soil had cracked due to moisture conditions. This allowed greenbug populations to get an early start below the soil line where temperatures were more favorable. It is very difficult to control greenbug populations when the colonies are on the base of the plants below the soil surface.

Predators and parasite

numbers are now reaching levels capable of bringing greenbugs under control. The most prominent of these in the field are the parasitic wasps and lady beetles.

Parasitic wasps have reduced some heavy greenbug population in fields in Roby, Anson and Albany areas to levels that no longer require insecticidal control measures. Increased wasp activity has been observed throughout the area. Heavy lady beetle populations have developed in many fields with numbers of 2 to 5 per foot of drill row. These greenbug predators are aiding greatly in control. Other predators that help in controlling greenbugs are nabids, spiders, big-eyed bugs and lacewings.

The greenbugs that have been or that are being parasitized by parasitic wasps are called mummies. These mummies are typically light brown, swollen, immobile and stick to the wheat foliage. The parasitic wasp deposits eggs inside greenbugs. After the wasp larva begins to develop, the greenbug becomes less active, turns yellow then brown. After the larva completes its development it pupates within the greenbug and later emerges as an adult generally from a hole that is cut through the rear end of the mummy.

Once 10 to 15 percent of the greenbugs have been parasitized, the wasp will bring the greenbug population under control within one to two weeks.

Beneficials are bringing greenbug populations under control in many fields, reports Clayton therefore, producers should inspect their fields to determine if greenbugs are causing excessive damage.

Further information on greenbugs and other small grain pests is available at your County Extension Agent's office.

BUFORD BIGHAM

You open up your newspaper or turn on the evening news any day in the week and find the world's endless, dreary troubles laid out before you. Every day it seems like a new country is heard from with more trouble than the one in the news the day before — countries a lot of us never heard of a year or two ago, like Zambia, Zaire, Uganda.

And that's just on one continent. Tomorrow somebody is going to find another country we never heard of before on some other continent, and it too will be reported in big trouble. The papers and the networks will carry the story, public officials will agonize over it, and we can add one more problem to our list.

I have thought long and hard over this and I've figured out the solution to people's mounting worries. What the world needs is a new set of leaders, all of whom failed geography in school. You can't worry about or come to the aid of a country you don't know exists.

Maybe we need a President for example who, when asked — by some reporter who probably just hears of the place — what he thinks ought to be done about say Angola, could reply without being laughed at by the rest of us:

"I'm not too familiar with that local situation, is Angola in Oregon or West Virginia?"

People are simply learning too much geography. Don't the newspapers and networks know that every time they introduce a new country to us they're just adding to the sum total of our worries?

Understand, I don't think ignorance is bliss, but on the other hand being informed can give you a headache.

By the way, which state is Angola in? What's the town's problem, busing? Drought? Yours faithfully,
J.A.

BOY SCOUT NEWS

The Hamlin Boy Scouts held their spring campout at the Martin Ranch during the weekend and for the second time in as many outings this year, the troop was rained on. Scoutmaster Sammy Ferguson has suggested that the local farmers tell him the next time they need rain so the Scouts can plan another campout.

He also thanked the fathers who went out and visited the Scouts Saturday.

Those attending the weekend campout were Steve Campbell, Gordon Roberts, Carl Wade, Mitch Lawlis, Wendell Roberts, Richard Speck, Johnny Cook, Billy Bond, John Bill Maddox, Dwayne Duncan, Kenneth Johnson, Todd Reynolds, Craig Cowan, Kevin Benningfield, Bobby Wall, Greg Young, Johnny Chase, Billy Joe Howerton, Steve Reynolds, Baron McMillen and Mike Harper.

The Scouts are now selling tickets for the annual Scout-O-Rama to be held on the Stamford Square April 16 from 1 to 4 p.m. Tickets are \$1 each with 50 cents going toward the summer camp fund.

Kim Stalnaker Joins U.S. Army

Kim Stalnaker, 17, a student in Hamlin High School for about two years, has joined the U. S. Army and will be reporting for basic training April 5 in Alabama.

After basic training she will receive a 30-day leave and then leave for Fort Campbell, Ky., for paratrooper training.

She plans to be assigned in Germany where her brother, Billy Wayne Stalnaker, is stationed.

She is one of seven children of Mr. and Mrs. Wayne Stalnaker of Dallas and has been living with her sister and family, Mr. and Mrs. Donald Ingram.

Her family is planning a reunion in Dallas which will include three sisters and two brothers and an uncle from Michigan. One brother will not get to attend.

VOYAGER WEST
by *Youthcraft* from
our Spring
Collection

A A washable, all-weather Voyager West. It's a wrap coat with a tie belt of the same material. The patch pockets on the top bodice are flapped and stitched. More stitching is evident on the back yoke. The darker trim appears on the edge of the shoulder straps, collar, pocket flaps and sleeve straps. A two-tone beauty to weather anything spring can manufacture. Sizes 8-18. B Triple-stitching detail draw all eyes to this Voyager West. Closed with a solitary button line, there's a shining ornament at the back belt and on each sleeve cuff. The shapely silhouette is abetted by the 100% polyester knit material. And all of this shape and fashion is washable! Sizes 8-20. C Voyager West sports the look of suede, using Ultralure to fashion a springtime all-weather coat. Two snaps take care of the closing. Comfortable sleeves allow it to go over any wardrobe item. It's all wrapped up with the same-material tie belt. Sizes 8-20.
